

Barracuda Networks, Inc.
Certificate of Compliance

RoHS-Compliant Commencing With 2006 Production

This document certifies that the Barracuda Networks products are manufactured in accordance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003, better known as the RoHS Directives, with regards to restrictions of the use of certain hazardous substances used in the manufacture of electrical and electronic equipment. Our products are classified as Network Infrastructure Equipment. The RoHS Annex gives exception to this type of equipment for the use of lead solder for reliability. The reader is referred to these Directives for the specific definitions and extents of these Directives.

The information provided in this document and disclosure is correct to the best of Barracuda Networks' knowledge, information and belief at the date of its release. The intent of this document is not to be considered a warranty or quality specification. Regulatory information is for guidance purposes only.

Authorized Signatory for Barracuda Networks, Inc.
